

# Restoration and Recreation Design Concepts for Noo-Kayet Point Presented

ABOVE: One of three concepts presented to PGST Community members for restoration and recreation on the former mill site. Review the other two concepts on page 7. These images have been cropped for space. To see the full map, please visit [www.pgst.nsn.us](http://www.pgst.nsn.us).

The next chapter in the life of the former Mill Site—also known as Noo-Kayet Point—is coming.

After purchasing the development rights to the property in 2021, Port Gamble S'Klallam Natural Resources began working on design concepts for the site, which include recreation and restoration components. The development rights were purchased from Rayonier, which merged with Pope Resources, in 2020.

Under the terms of the agreement, which includes a conservation easement, the Tribe is expected to present draft plans for restoration, stewardship, and recreation of the site by June of this year. The Tribe contracted with Environmental Science Associates (ESA), an environmental consulting firm headquartered in Seattle, to help in this process.

## Staff Changes at Heronswood® and Port Gamble S'Klallam Foundation Announced

*From left to right: Ross Bayton is Heronswood's new Garden Director; Andrea Dolan-Potter takes over as Executive Director at the Port Gamble S'Klallam Foundation; and Olivia Bidtah takes on a grounds maintenance role in the Garden*

It's been a busy winter at Heronswood® Garden and the Port Gamble S'Klallam Foundation. In addition to the garden blooming anew for spring and the return of in-person Plant Sales, there are some staff changes to share.

In late 2020, Heronswood welcomed Patrick McMillan as its new Garden Director. He took over from Dan Hinkley, now Heronswood's Director Emeritus.

For Patrick and his family accepting the job meant saying good-bye to their lives on the east coast. A difficult undertaking, but one that never showed in Patrick's endless enthusiasm and energy to help shape the future of the garden.

Unfortunately, all good things must come to an end and Patrick left his position at the end of February. His wife was offered an opportunity back east, so as she once followed him, he has joined her on this new adventure.

The Garden is in great hands though with its newest Garden Director: Dr. Ross Bayton!

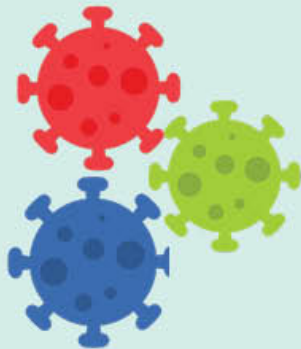

Ross joined Heronswood in 2017 and has worked as Assistant Director since 2020. Not only has he benefited from working closely with Dan, Patrick, garden staff, and volunteers, but he possesses a wealth of knowledge from previous positions in horticulture, publishing and academia.

Also joining the Heronswood team is Olivia Bidtah, who is working in grounds maintenance. Olivia joined the garden in October 2021 and has brought great enthusiasm and passion to her new position. She is an up-and-coming plantswoman, caring for her grandmother's garden and her own ever-expanding houseplant collection.

At the end of February, Joan Garrow, a long-time PGST employee, began her retirement. Joan has served as the Port Gamble S'Klallam Foundation's Executive Director since 2014 acting as a liaison between the Tribe, garden staff, and all the various people who care for and about Heronswood.

The Foundation's new Executive Director is Andrea Dolan-Potter, who has worked alongside Joan since 2019. Andrea comes to her new position with years of non-profit management and fundraising experience.

Heronswood is proud to welcome visitors back to the garden for their much-beloved Plant Sales. The Spring Plant Sale is scheduled for April 30 and May 1; the Autumn Plant Sale will take place on September 10 & 11. The garden's winter hours are Saturday and Sunday, 10 am to 3 pm. Spring hours, which include openings on more days of the week, will begin on April 1.

**On March 1, masks will become optional and all gathering restrictions for PGST community and staff on the reservation will be lifted.**

## What does this mean?

We're in a better place in the fight against COVID. There are vaccines and effective treatments. The Omicron variant is much more transmissible, but far less severe. At this point in the pandemic, the negative outcomes caused by mask mandates and other restrictions outweigh the potential risks from COVID.

### **Masks are no longer required for staff or guests in the Tribal Center.**

Anyone who still wants to wear a mask is encouraged to do so. Remember: masks are still required in most public spaces in Washington state through March 12.

**Masks will continue to be required for Health Center staff, patients, and visitors.** This includes any medical or dental setting on the reservation.

### **There are no longer any restrictions on gathering size!**

This includes on the Tribal campus.

### **Please continue to be mindful of Elders and the medically vulnerable.**

Hold gatherings outside, if possible, or open windows and doors to allow for good ventilation.

### **Continue to get tested if you have any symptoms of COVID.**

Knowing the numbers is important to help our medical experts make reasonable decisions for our community and staff.

### **Keep up healthy habits.**

Stay home if sick. Wash your hands. Get vaccinated. Use common sense to protect yourself and others.

The Health Center will continue to offer COVID testing daily during the week. They can also schedule appointments to receive the COVID vaccine or boosters. The vaccine is available to anyone aged 5+.

**Questions? Call 360-297-2840.**

## NOO-KAYET POINT DESIGN CONCEPTS

*Continued from Cover*

On February 22, a special Zoom Tribal Council meeting was held to present the three concepts currently under consideration. This meeting was open to all PGST Community members with the concepts shared on the Tribe's Facebook page and website ahead of time.

Steve Roelof and Daniel Elefant from ESA were at the meeting to walk participants through each concept and explain how they furthered the main goal of full near-shore restoration for habitat and as a place for the Tribe now and generations ahead.

During the presentation, the team from ESA made it clear that the approach put the Tribe's needs and desires first, while the objectives of any final design would include:

- Restore physical processes and geomorphic conditions that support a sand and gravel beach and shallow subtidal habitats.
- Protect any remaining contaminated soil from scour and erosion.
- Adapt management approach for maintaining the restored shoreline and for transitioning the shoreline at and adjacent to the spit to restored conditions.
- Create a restoration that benefits a wide range of species including salmon, forage fish, and varied shellfish.

The three design concepts all featured a gravel beach, but with variations on the removal of the jetty and north re-ventment. A fourth option mentioned was to take no action at all and leave the site as it is now.

Elefant, who presented on the science behind the creation of the design concepts, cautioned against considering the "no action" approach. "Not taking any action does not increase process functions or habitat extents so wouldn't push the site towards restoration," said Elefant.

All three design concepts included various recreation amenities, including summer and/or winter gathering spaces, a welcome plaza, canoe landing area, native plant restoration areas, and publicly accessible walking trails. The concepts all included parking and restrooms.

Those who attended the presentation were offered the op-

portunity to ask questions and discuss the various concepts. Several people expressed concern for how plans will impact Point Julia. "(Noo-Kayet Point) connects to Point Julia. It connects to the Salish Sea. It's all so important," said Darlene Peters, who attended the design concept presentation.

According to ESA representatives, the restoration process for Noo-Kayet Point would have the same strict rules as the cleanup to protect Point Julia, the bay, and all the connecting areas.

The response to the concepts was strong and people were excited at the prospect of a new future for Noo-Kayet Point.

"A lot of us grew up with the mill being present, listening to that engine, the white noise that would happen through the night," said Chairman Jeromy Sullivan. "The mill has been a blessing and a hinderance to our growth and now here we are talking about restoration. Having these restoration projects happen in our bay is huge."

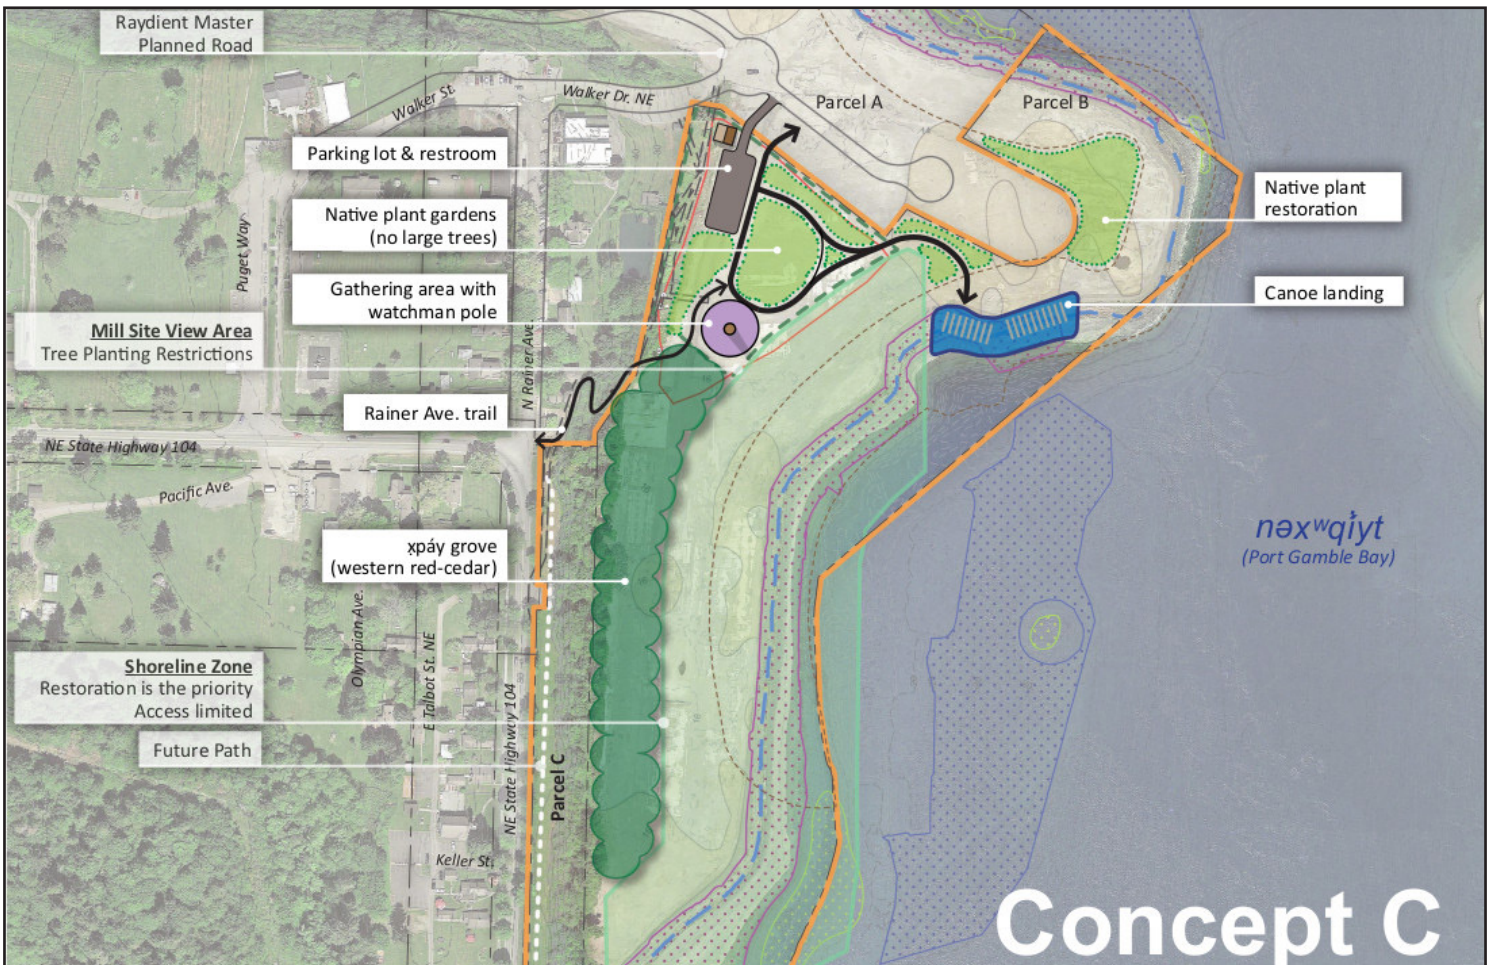

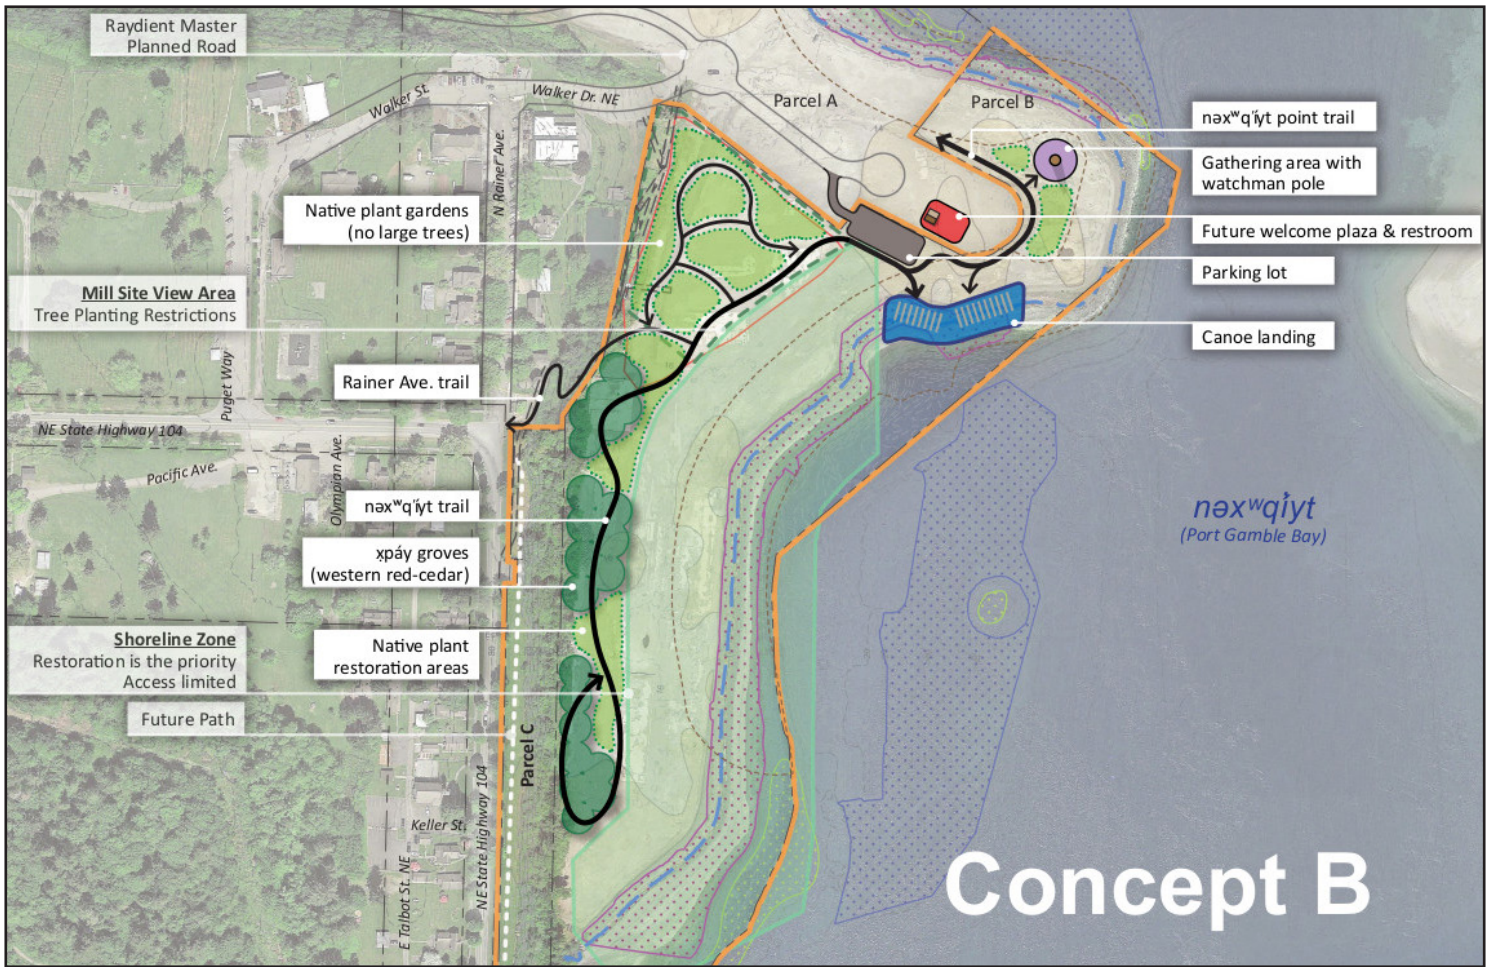

The three concepts under consideration are a starting point in the process of choosing a direction for the area. The process of refining the chosen concept into a workable final design will take years and include additional stakeholder meetings to gather input.

For this initial phase, community members were asked to provide input at the meeting and through a survey, which can be found at <https://forms.gle/no7L7KMQpEPbnY-Bi7>. The survey will remain open at least into the first part of March.

While the outlook for the former mill site has, at times, been uncertain, a new day has dawned and, with it, new possibilities.

PGST Vice Chair Chris Tom expressed his optimism by saying, "Every step of the way—from the cleanup to talking about the mill and what it could be, like we're doing today—is really cool. I'm looking forward to the clean future of the place."

## Spring General Council: March 26

The 2022 Spring General Council meeting is scheduled for Saturday, March 26 at 9 am in the Longhouse. This will be the first in-person only General Council since the start of the pandemic.

On the agenda are votes on enrollment and updates from Tribal Council and governmental departments. Agenda request forms are now available at the front desk or from the Tribe's Facebook page. These must be received by Friday, March 11 for consideration.

Door and raffle prizes will be available to attendees.

## 2022 PGST Elders Honoring Luncheon

The 2022 PGST Elders Honoring Luncheon will be held on Friday, March 18 at 12 pm in the Gym. This will be the first in-person Elders Honoring since the start of the pandemic.

The new Elders being honored include Dayna Benefield, Greg Donaldson, Jeffrey Fulton, Mark Ives, Dennis Jackson, Michelle Jones, John Lund, Mark Nilluka, Brian Perry, and Angela Sanders.

The event will include a seafood lunch, door prizes, and t-shirts for attending Elders. Photos of the new honored Elders will be taken at the event.

## COVID Support and Incentives Ending

On March 1, the masking requirement became optional and gathering restrictions lifted on the reservation. As a part of these changes during this next phase of the pandemic, some COVID support and incentives are changing or ending:

- As of March 1, quarantine assistance has reduced to one \$500 card per household dealing with COVID. This assistance will end entirely on March 31.
- A booster incentive of \$100 is available to all community members and staff. This is available through March 31.
- A program providing \$5000 in financial assistance to enrolled Tribal members 18 and older will end on March 31. Applications must be received by that date.

For more information and applications, please visit [www.pgst.nsn.us/covid-19](http://www.pgst.nsn.us/covid-19).

## Seafood Business & Marketing Workshop: Incentives Offered

The NR department is offering incentives to Tribal members who participate in the Seafood Business and Marketing Workshop, which aims to give participants the skills to start or expand their own seafood business.

The workshop takes about an hour to complete and covers fish buying and

selling regulations, PGST fishing code, and small business finance.

Participants will receive an \$800 gift card, extra resource materials, and copies of all the presentation materials. The workshop will be available from April 1 to May 1, and is offered Tuesday thru Friday from 8 am to 4 pm. Participants must be 18 years or older.

Space is limited. To reserve your spot call Julianna Sullivan (360-633-5629) or Nikki Venneman (360-865-2678).

## Informational ZOOM Sessions

Calling all Tribal members! Curious about how your government operates. Learn more by joining Tribal Council in a series of Zoom sessions covering a variety of topics, including:

**Tuesday, March 15 @ 5 pm**

*Topic: Planning & Development*

**Tuesday, April 19 @ 5 pm**

*Topic: Finance*

**Tuesday, May 17 @ 5 pm**

*Topic: Tribal Enterprise*

These are unofficial meetings. No door prizes or other incentives will be offered for attending. They do not replace General Council meetings.

Register for the sessions you're interested in by contacting Carilla Sims at 360-297-6217 or [cthevathan@pgst.nsn.us](mailto:cthevathan@pgst.nsn.us).
