

Hello everyone, my name is Jacob Conrad Sullivan, I am a PGK member, I have been a part of this community my whole life. My parents are Michael Sullivan, Yvonne Jones, my grandparents are Conrad Sullivan, Barbra Sparks, Jake Jones, and June Jones. There are some things that I have accomplished by going to school and receiving my BA in Native Studies Leadership and have learned a lot through my educational journey, I also have been employed with the Northwest Indian College as full-time faculty for the NSL program. I have been able to learn a lot from our past and present leaders, family members, friends, co-workers, and our respected elders, from this field of work I think I could be a suitable candidate for being a part of our tribal council.

I want to make a change for our community not for us but for our future generations, and being on council I think I can bring a new perspective of what we can be doing for our future. The things that I can focus on are education, culture, community, economy, self-determination, and a new vision. My visions for our future to understand what's community is by learning from our own and being dependent on our own to know that is what we need, education is a Pivotal part of doing this because that is the future of who we are.

I want to give back to my community and prepare our future generations and have a good framework for them to build upon. I think that I can do that with my position and be the voice for our people. I have learned a lot from our past leaders, but I know there is a lot more to learn from our current leaders and community, I look forward to representing our people and being a voice for everyone.

Sincerley,
