General Council Goes on Virtual Tour of Recent Property Acquisitions

An aerial view of Miller Lake, a 30-acre lake at the heart of a 265-acre property recently acquired by the Port Gamble S'Klallam Tribe

During the Spring General Council meeting, Executive Director Kelly Sullivan gave attendees a peek at two recent property acquisitions by the Tribe.

During the fall of 2024, the Tribe closed on the 265-acre Miller Lake property. At the center of the land is a 30-acre lake, which drains into Marth John stream and is important habitat for a variety of wildlife. The property is largely undeveloped with dirt walking trails amongst a forest of mature trees.

Miller Lake was owned by one family for over 70 years, who used it for recreation and fishing trips. The property features a cinderblock, single-room cabin and narrow roads that can be difficult to navigate, especially with debris left after recent storms.

The Tribe currently has no plans for the property and is having conversations with neighbors to assess how the property has been used and maintained in recent years under the previous ownership.

During the meeting, drone footage of the lake taken by Planning was shown. Later in the spring, after the gates are replaced and the road is cleaned up, there are plans to offer tours of the property to PGST community members and discuss the best way to offer ongoing access.

With the acquisition of the Miller Lake property, which abuts Heronswood Garden, the Tribe now owns land from the reservation to Highway 104.

PGST Vision Statement

Our vision is to achieve the full potential of the Port Gamble S'Klallam Tribal sovereign nation to be self-sufficient, proud, strong, healthy, educated and respected.

PGST Mission Statement

The mission of the Port Gamble S'Klallam Tribe is to exercise sovereignty and ensure self-determination and self-sufficiency through visionary leadership. We will ensure the health, welfare and economic success of a vibrant community through education, economic development, preservation and protection of the rich culture, traditions, language, homelands, and natural resources of our Tribe.

Chairwoman Caldera General Council Update: The Highlights

At Spring General Council, Chairwoman Amber Caldera provided her updates on big picture issues impacting the Tribe. Below please find highlights from her remarks.

On the Focus of Tribal Council

We continue to make connection and collaboration a priority. This has included attending various trainings and conferences throughout Indian Country. These events have made us realize that we are not the only community facing challenges, and by learning from other's experiences, we are able to find possible solutions, bring them home with us and S'Klallam-ize them to fit our own needs.

Council has also prioritized strengthening alliances with local, state, and tribal officials. This has included forging an even closer working relationship with the North Kitsap School District, which will benefit all of our children for years to come.

Recently, I spent a few days in Olympia, meeting with our State Senators and Congress members. I had the chance to discuss our needs, including reimbursement for Traditional Medicine, funding for our ongoing bay clean-up, and elder care. I am confident that building these relationships are going to be very beneficial for our Tribe in the future.

On Work with Noo-Kayet Investments

Economic development continues to remain a priority. As you know, Tribal Council has been working alongside Noo-Kayet Investments' interim CEO, Eric Croft, and its interim Board Chair, Alicia Fulton, to set up the Tribe's businesses for continued economic success. A part of this work has included commissioning a review of NKI's structure, policies, and procedures. Ultimately, everyone involved recognizes that NKI, while an independent entity, is a direct extension of the Tribe. As such, their values should reflect our own. Profitability must go hand-in-hand with operations that are sustainable and focused, while treating staff with fairness and respect.

It is not the goal of Tribal Council to continue the level of operational oversight we've exercised with NKI recently. We do believe though, that it's important that the lines of communication stay open. As such, we are working on strategies to ensure a continued close working relationship with plans on how to structure the Board moving forward.

I am proud of the work that has collectively been done to secure the future of Noo-Kayet, the entities it manages, and, of course, the economic prosperity of this Tribe. In partnership with NKI, over the last year, we have purchased land, expanded our holdings, and made changes to current businesses to

make them more functional and profitable. I can tell you this is just the beginning—big things are on the horizon and I'm excited to share more when the time is right.

On Protecting the Tribal Community Against Federal Actions

While it has been difficult to keep up with the constantly moving targets that have been the hallmarks of this administration, we are working to ensure we have plans for a variety of possible outcomes. This includes any disruption in funding from federal sources, whether isolated or far-reaching. Like during COVID, our goal is to protect the health, safety, and well-being of our community. We will do this by ensuring services remain open, our lands and culture are protected, and our people are cared for.

Because things have continued to move and then evolve so quickly with this administration, it can be difficult to provide timely updates. But, please know, we are watching and taking action every day.

On Supporting Those in Recovery

This past week, we attended a Town Hall meeting focused on Raising Awareness on Fentanyl and Recovery, hosted by the Court Services Department. Despite the heavy topic, I left the event with a full heart. I am incredibly proud of our people in recovery, and I'm equally proud of our Tribe for offering so many services to support those struggling with addiction. A special shout out to the staff that put on the event; it was a great evening.

Please help us by taking a moment when you see someone in active recovery, to remind them how proud we all are of their commitment to showing up and continuing their journey. And when you see someone in active addiction, please remind them that they are not alone in their struggles, we accept them for who they are, and encourage them to seek help. There's no better place to be when going through hardships, than here in our community, where the love and support are in endless supply.

In closing, as we gather here today, I want to assure you: no matter what happens, we're well positioned to continue to provide for our community. The state of our Tribe, its government, and this community is strong. As always, we are—and shall remain—the Strong People.

Spring Activities Blossom in the Culture Department

By Alicia Fulton
Culture Department

This month, the Culture Department is embracing the vibrant activities of spring, and we have fun updates to share with our community.

Our team recently harvested nettle, transforming it into delicious tea and pesto that we enjoyed together and shared with other departments. In collaboration with the Canoe Fit Program, we provided a tasty meal of traditional foods to our canoe pullers and those looking to get healthy by engaging in familiar exercises.

A highlight of the month was our first trip to Indian Island, where a van full of S'Klallam women gathered traditional plants and medicines from our ancestral lands. This marks the first of what we hope are many trips to Indian Island this year, reinforcing our connection to the land and its resources. These trips will require all Tribal Members to sign up in advance, due to this being a military complex, access is only allowed to those with federal recognition and valid identification.

We also celebrate the achievements of our dedicated team member, Misty Ives, who successfully completed her Cultural Resource Management training in March 2025. With her new Tribal Historic Preservation Monitor Certification, Misty is now qualified to observe and monitor any ground disturbances in our usual and accustomed (U&A) areas, ensuring our cultural resources are protected.

As we look ahead, we are busy planning future classes to prepare for our significant Canoe Landing and to keep our community engaged in meaningful and culturally significant activities.

Stay tuned for upcoming class offerings! We regularly post updates on the Tribe's campus, Facebook, the Memo, and in our newspaper. We also send text message updates to keep everyone informed. We welcome your ideas and invite you to volunteer and support our events.

Upcoming Classes & Events

Indian Island Harvest (*Tentative: 4/8/2025*)

Tunic Weaving (*April 11, 4-8 pm; April 12, 9 am - 3 pm; April 13, 9 am - 3 pm*)

Peyote Stitch Class (*Date TBD*)

Miller Lake

Cont. from Cover

This spring, the Tribe also closed on the purchase of the Tanner Building in downtown Kingston. At 4,400 sq. ft., the building offers room for 5+ private offices, a conference room, kitchen, and a large open area that could be utilized for modular office space. While not certified, the building was built to LEED Gold standards with sustainable landscaping. Office furniture was included in the sale of the property.

The purchase of the Tanner Building also includes a 1,200 sq. ft. basement/storage area and an adjacent 1,200 sq. ft. vacant lot. The site has up to five dedicated parking spaces next to the building along with six spaces across the street and open street parking.

Noo-Kayet Investments (NKI) helped to facilitate both purchases. The Tanner Building will ultimately house staff from NKI and/or PGST.

At right: interior shots from the Tanner Building, a 4,400 sq. ft. office building in Kingston that the Tribe recently purchased

NKI Training Center Opens

On March 13, Noo-Kayet Investments celebrated the opening the Training and Development Center. This new, fully renovated space is located in the former Kountry Korner facility. The space will be used to train new and current staff at The Point Casino and other NKI-managed entities. Some staff will also have offices on site, including Jonelle Grady, Tribal Development Manager.

Career & Education Spring Update!

By Toni Jones, Career & Education Director

As spring unfolds, the Career and Education Department is bustling with exciting activities, achievements, and partnerships that continue to enrich the learning experiences of our students.

Academic Excellence at Kingston High School

We are proud to celebrate the accomplishments of six Kingston High School students who achieved A's and B's this term. Their hard work and dedication demonstrate a strong commitment to academic success. We applaud their perseverance and look forward to continued excellence! Tayana Caldera, Cherish Goodall, Trinity Ives (straight A's), Clara Jones (straight A's), Lily Moff (straight A's), James Napora.

Career and Education Staff Present at NCCE

Our Career and Education team had the honor of presenting at the Northwest Council for Computer Education (NCCE) Conference. Our staff highlighted innovative approaches to integrating technology into culturally relevant education and shared how we incorporate place-based and outdoor learning models into our programming.

Record-Breaking Attendance in After-School Tutoring

Our after-school tutoring program has seen record-high attendance this semester! Students are taking advantage of the extra support available to strengthen their academic skills. The positive feedback from families and students affirms the value of this program, and we are excited to see so many young minds eager to learn.

Stream Restoration at Martha John Creek

In collaboration with the Greater Peninsula Conservancy and PGST Natural Resources, our staff and students participated in a stream restoration project at Martha John Creek. Teachers Rachel and Eddie Flores have worked alongside the Greater Peninsula Conservancy to manage tree populations and promote sustainable practice. This hands-on experience allowed students to engage in environmental stewardship while learning about the importance of maintaining healthy ecosystems.

PGST Places Program Thriving

The PGST Places Program has been flourishing, with classes filling up quickly as students eagerly explore the outdoors. Ms. Serene and her assistant teachers, Cedar and Jocelyn, have led students on numerous outdoor adventures where they have identi-

fied baby plants, examined their differences, and enjoyed fun activities such as puddle jumping and air clay pressed art. Their enthusiasm for learning and nature has inspired curiosity and a deep appreciation for the environment.

Outdoor Education and Spring Learning

Spring has brought renewed excitement to our Outdoor Education programs! The K-3 Places Program, led by Mrs. Serene, Mrs. Jocelyn, and Ms. Cedar, has been busy exploring birds, identifying native plants, participating in Klallam language scavenger hunts, and foraging. With the arrival of warmer weather, these activities provide a dynamic way for students to connect with the land and deepen their understanding of traditional ecological knowledge.

Spring Break Enrichment

During Spring Break, Places teachers and education staff will offer full-day classes focusing on canoe culture, beach ecosystems, and STEM. These immersive experiences will give students a chance to explore their heritage while engaging in hands-on science and environmental learning.

Tend, Gather, Grow and Tree Stewardship

Our Outdoor Education team has also been active in hosting Tend, Gather, Grow training sessions at ECE and Wolfe Elementary. Additionally, teachers Rachel and Eddie Flores have worked alongside the Greater Peninsula Conservancy to manage tree populations and promote sustainable practices.

Cultural Plant Stewardship and Community Engagement

Ms. Hannah has been busy this season! Outdoor education initiatives have extended to Jefferson County Trust Lands, where our team discussed cultural plant stewardship with students. We also partnered with Heronswood to host a cultur-

al kindergarten field trip and scavenger hunt. In the community, we have hosted classes on growing yarrow, foraging nettles, creating medicine bag gifts for Canoe Journey, and preparing nettle pesto.

Preparing for Canoe Journey with Canoe Fit

As part of our commitment to holistic learning, Outdoor Education has supported the preparation for this year's Canoe Journey by hosting Canoe Fit sessions. These sessions combine physical fitness with cultural teachings, ensuring that our youth are well-prepared physically and mentally for this significant cultural event.

Preparing for Graduation Honoring

Graduation season is approaching, and we are excited to celebrate the accomplishments of our PGST graduates! If you are graduating or know of a PGST student graduating from high school or college, we want to honor and celebrate them. Additionally, for North Kitsap School District graduates, we assist in purchasing graduation regalia to ensure that all our students can participate fully in their ceremonies.

To notify us of a graduate or for assistance with graduation regalia, please reach out to [Bethany Swift at bswift@pgst.nsn.us.**](mailto:bswift@pgst.nsn.us)**

We are also offering Cedar Graduation Cap classes taught by Sasheen DeCoteau, where students can create their own traditional and culturally significant cedar caps to wear at graduation.

Upcoming Spring College Visits

This spring, we will be offering college visits to:

- Central Washington University
- Bates Technical Institute
- Clover Park Technical College

These visits will provide students with an opportunity to explore academic programs, campus life, and potential career pathways. Keep an eye out for flyers with more information and details on how to sign up!

We are proud of the dedication and enthusiasm shown by our students, families, and staff. As we continue to build strong connections between culture, education, and community, we look forward to the exciting opportunities ahead.

Opportunities and announcements for the S'Klallam Community

Special General Council Meetings in 2025

2025 brings a new schedule of Special General Council meetings, which focus on the work of PGST departments. Upcoming Special General Council meetings include:

- Tuesday, May 6: Child & Family Services
- Tuesday, June 3: Health Services
- Tuesday, September 2: Point No Point Treaty Council
- Tuesday, October 7: Legal
- Tuesday, November 4: Heronswood

All meetings take place over Zoom. Please check www.pgst.nsn.us/calendar for Zoom details.

Vibrio Training Sessions for 2024 Announced

Vibrio Season is quickly approaching! Anyone who plans to commercially harvest oysters from May 1st through September 30th must have a current Vibrio sticker. Those who took and passed the test last year, or took the training last year may take the test this year. If you did not take a test or class last year, you must attend a training session prior to harvesting oysters after May 1. Please arrive on time for your class, if you are more than 5 minutes late you may be asked to attend a different session.

There are 3 vibrio training sessions scheduled in the Tribal Center Large

Conference Room:

- April 9th at 10 am
- April 16th at 2 pm
- April 22nd at 5pm

Tests will be available in the Natural Resources office starting April 7th. You must bring your fishing ID with you to receive your sticker.

Please call Natural Resources at 360-297-6294 or text 360-516-3206 with any questions.

IMPACTS OF LITTERING

POLLUTION

Littering leads to air, water, and land pollution.

WILDLIFE

Animals can become entangled, poisoned, or suffocate on litter, impacting biodiversity and ecosystems.

HABITAT

Litter can damage habitats, forcing animals to move to unsuitable areas.

PICK IT UP

If you see litter, take the time to pick it up and dispose of it in an appropriate trash receptacle.

JOIN US

Litter cleanup during Spring Cleaning

Event April 8 3:30-5:30

Behind the Ballfield

Share your litter cleanup photos

#pgstlovesourplanet

TOO GOOD TO TOSS

There will be a covered area for furniture and other items that are too good to toss. Community members may make treasures from trash while keeping items out of the landfill! We will also be donating furniture to Habitat for Humanity.

Reading Recommendations

Waiting for the Long Night Moon by Amanda Peters (Mi'kmaq): Canadian writer Amanda Peters (The Berry Pickers) delivers a skillful collection of stories of Indigenous experiences across time, from early European contact to modern water-rights activism. These stories remind us that where there is grief there is also joy, where there is trauma there is resilience and, most importantly, there is power. (*Fiction • Book • 2025*)

Rez Metal featuring I Don't Konform (Navajo Nation): This documentary follows the Navajo heavy metal band I Don't Konform's remarkable journey to recording their debut album with Metallica's Grammy-award winner producer, Flemming Rasmussen. Their compelling story, representing the vibrant heavy metal scene on Navajo reservations, reveals greater insight into this musical genre as a source of inspiration and belonging, and a potent form of self-expression. (*Documentary DVD • 2022*)

A Library For All: Celebrating 80 Years

In 1944, Kitsap County residents made history by voting to create a county-wide library system, sparking a legacy of learning and community. By January 1, 1945, the Kitsap Rural County Library District was officially in operation, and ten years later, it adopted the name Kitsap Regional Library, becoming a vital resource for the entire county. 80 years later, we're celebrating this remarkable milestone with a year-long journey through our shared story.
